International Targeted Symposium

«Ensuring the transition to distance
education as a priority task of applied
philosophy:
search for non-trivial ideas»
ETDE - 2020

Almaty, 03 October 2020

Announcement

Al-Farabi Kazakh National University, the Institute of Information and Computing Technologies of the Ministry of Education and Science of the Republic of Kazakhstan, the Korean Scientific and Technical Society "Kahak", the Korean Federation of Scientific and Technological Societies, invite all interested parties to participate in the conference "Ensuring the transition to distance education as a priority task of applied philosophy: search for non-trivial ideas ", which will take place on October 03, 2020 in an online format.

Prerequisites for the symposium

The forced transition to distance learning in schools and universities in Kazakhstan has caused more than significant public resonance.

Numerous problems that were revealed at the very beginning of the school year were actively discussed in the media.

These problems actualize the thesis of the need to move to a new post-industrial paradigm of education - the paradigm of education in the digital age.

In essence, we are talking about the need for an early solution of a whole complex of problems, which, first of all, requires an understanding of the philosophical level.

Issues for discussion

- 1. Problems of transition of education to a distance format.**
2. Towards a post-industrial paradigm of higher education.
3. Gamification of the educational process in primary and secondary schools.
4. Distance learning at school: lessons from the epidemiological crisis of 2020.
5. The role of applied philosophy in the formation of new approaches in education.
6. Algorithms for the functioning of educational digital technologies.
7. Artificial intelligence in modern education.
8. Possibilities of using artificial intelligence systems to assess the knowledge and abilities of students.
9. Internationalization of higher education.
10. Digital educational resources.
11. Digitalization of education: new non-trivial ideas and approaches.
- 12. Advanced research by young scientists**

Program committee

Chairman - academician of NIA RK, prof. G.A. Mun (Kazakhstan)

Co-chairman - prof. O. A. Gabrielyan (Russia)

Scientific secretary - academician of NIA RK prof. I.E. Suleimenov (Kazakhstan)

Location of the conference

The conference is held on 03.10.2020 in online format on the Zoom platform, the conference starts at 14.00. The organizing committee will send a link to go to the meeting to registered conference participants.
