## Advances in Data Modeling for Measurements in the Metrology and Testing Fields.

Author: [Franco Pavese](#); [Alistair B Forbes](#)  
 Publisher: Dordrecht : Springer, 2009.  
 Series: [Modeling and simulation in science, engineering & technology.](#)  
 Edition/Format: eBook : Document : English [View all editions and formats](#)

Summary: Offers a comprehensive set of modeling methods for data and uncertainty analysis. This work develops methods and computational tools to address general models that arise in practice, allowing for a more valid treatment of calibration and test data and providing an understanding of complex situations in measurement science.
