This paper describes the sensor construction in detail and discusses its behavior under the influence of several external factors. The overall performance of the sensor is also assessed.</p> <p><b>Published in:</b> IEEE Transactions on Magnetics ( Volume: 36 , Issue: 3, May 2000)</p> <div><div>Page(s): 557 - 560</div><div>INSPEC Accession Number: 6626002</div></div> <div><div>Date of Publication: May 2000</div><div>DOI: 10.1109/20.846218</div></div> <div><div>ISSN Information:</div><div>Publisher: IEEE</div></div> |
